

Event name: RRR NYE Run Assessment carried out by: Sue Stileman

Date of next review: October 2023 Date assessment was carried out: October 2022

What are the hazards?	Who might be harmed and how?	What are you already doing to control the risks?	What further action do you need to take to control the risks?	high/ med/ low risk
roads - traffic present	runners - hit by car	advise runners to be vigilant and aware of traffic when running on/ across roads.	advise to wear high viz or bright colours if weather conditions and visibility is poor	medium
trails - uneven underfoot, mud, puddles, rabbit holes, brambles, roots	runners - trip hazards underfoot, low hanging branches overhead	advise runners of variable underfoot and overhead - awareness should be applied when running on them	advise runners to carry a basic first aid kit in case of accidents. Report any incidents to Sue Stileman	medium
public footpath - shared access	runners and members of the public - collisions	advise runners that the footpaths are all open access so other people/ dog walkers/ runners/ cyclists may be using them too	None	Low

What are the hazards?	Who might be harmed and how?	What are you already doing to control the risks?	What further action do you need to take to control the risks?	high/ med/ low risk
Weather - wet, cold, windy	runners getting cold and wet	advise runners to dress according to conditions- if wet, have a waterproof, if cold, hat and gloves	advise runners to have dry warm kit to change in to at the end of the run.	low
Livestock in fields where footpaths cross	runners and livestock- potential interactions	advise runners that livestock may be present in fields and to give them a wide berth, slow down and not attempt to interact with them. Particular care should be taken if dogs are also present.	None	Low
Icy weather	runners- slipping over	advise runners to be mindful of the risk if the weather is icy and skirt round areas of ice where possible	None	Low
